

KAPPLER ZYTRON® 500 Training Suit Z5S555

ZYTRON® 500 TRAINING SUIT - STYLE Z5S555

SPECIFICATIONS

- The suit is constructed from a multiple layer film based composite material – a non woven substrate laminated on both sides with plastic films
 - All seams stitched with nylon thread
 - Front entry, expanded back design with a 48" polyester zipper overlapping double storm flap made of the base fabric shall cover the zipper
 - Storm flaps have a hook and loop closure
 - Gloves consist of a PVC Black Knight permanently sewn onto the suit
 - Expanded view window made of 20mm polished PVC
 - High visibility chest patch denoting 'TRAINING USE ONLY'
 - Good cheap alternative for training purposes
 - Sizes available in XS to 4XL
- Constructed with sock boots made from the base material to allow the use of replaceable overboot
 - The boot area is covered by a splash guard made of the suit material. Sockboots are designed to be worn inside outer overboots.
 - The expanded backpack of the suit shall be sized to accommodate either a SCBA or re-breather system.
 - The suit is constructed with sleeves designed such as to allow the worker to easily remove hands into the inside of the suit, but without excessive material under the arms which can catch on sharp objects.
 - The suit contains an internal 2" waist belt system for support and improved fit.
 - The suit is designed to accommodate a one-hour breathing apparatus and allow for use of a hard hat.
 - The suit is constructed with two exhalation ports.
 - Suits will come packaged in reusable storage bags with carry handles.
