-  height adjustable stands, up to 30 cm
-  embankment compensation up to 1.5 m with cantilever

Ready to use in seconds!

1..

3..

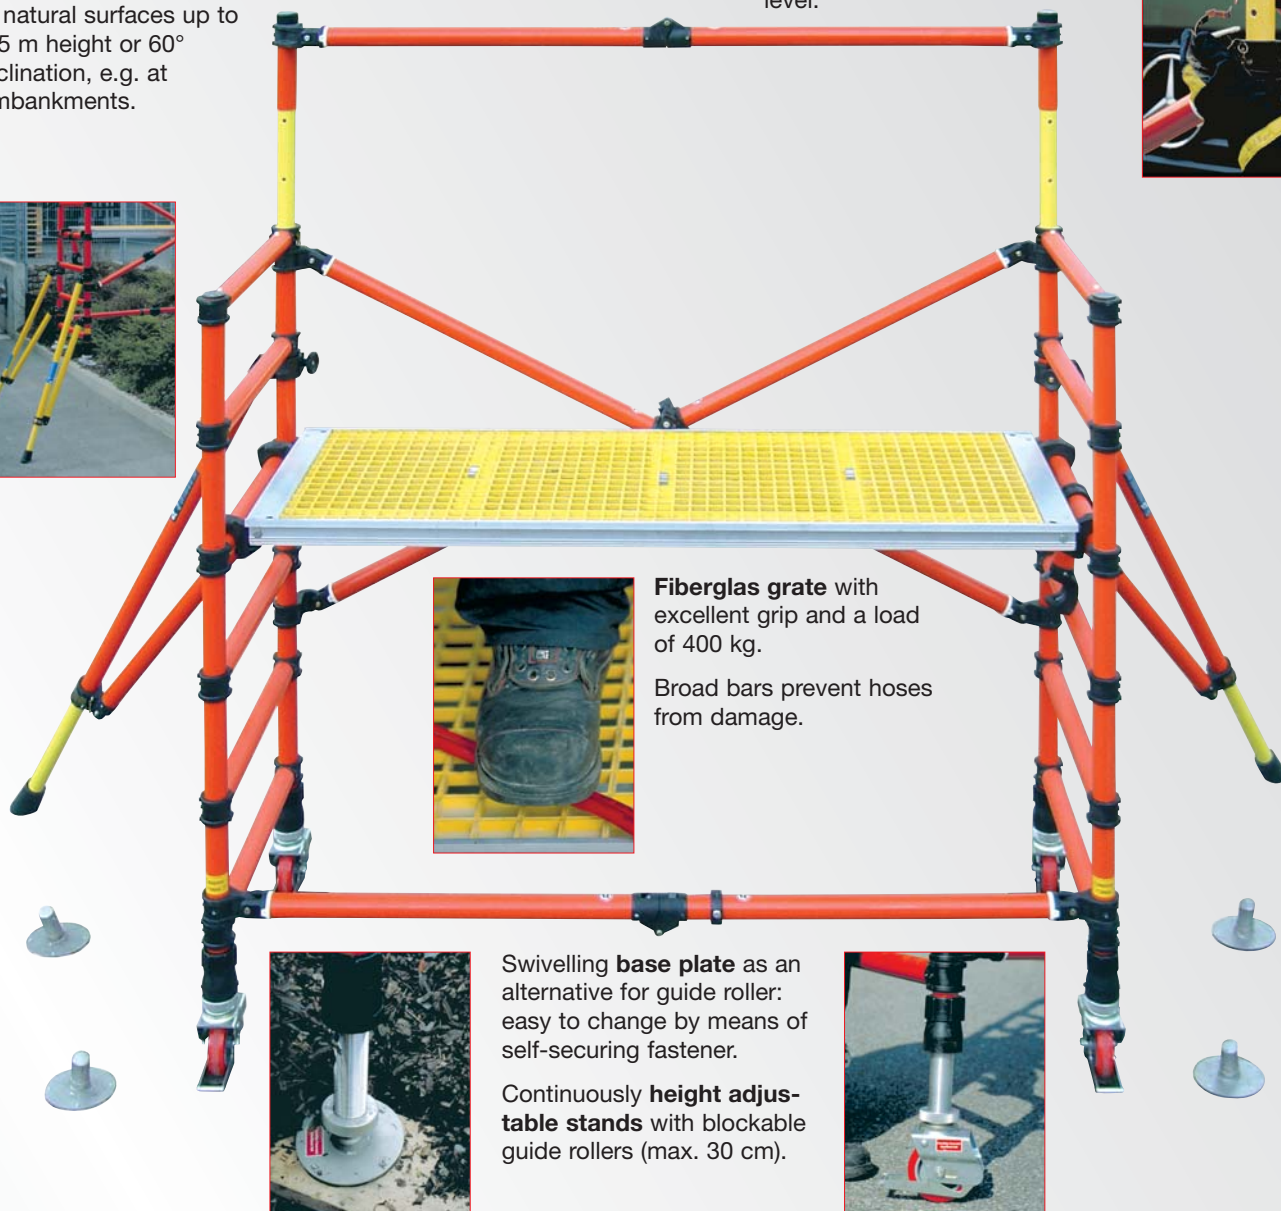

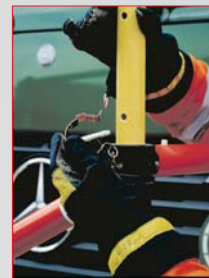

Cantilever support with integrated adjustable base.

Used to compensate level differences in natural surfaces up to 1.5 m height or 60° inclination, e.g. at embankments.

Adjustable **guard-rail** and back protection up to 1 m height at highest platform level.

Fiberglass grate with excellent grip and a load of 400 kg.

Broad bars prevent hoses from damage.

Swivelling **base plate** as an alternative for guide roller: easy to change by means of self-securing fastener.

Continuously **height adjustable stands** with blockable guide rollers (max. 30 cm).
