

STYLE SPECIFICATIONS

OLIVER 25-396 250MM (10") PULL ON STRUCTURAL FIREFIGHTER BOOT

DESCRIPTION -

High quality black water proof structural firefighters pull on boot.

COLOUR: BLACK

SIZE: 3-14, 5½-10½

STANDARD: AS/NZS 4821:2006
Type 2 Firefighting Footwear Standard

APPLICATION: EMERGENCY SERVICES / FIREFIGHTING SERVICES

FEATURES -

- The AT's heavy duty Dual Density Nitrile Rubber Soling System utilizes two layers of expanded rubber cells, a soft midsole which cushions the foot on impact and a high density hardwearing outsole.
- Olivers unique **COMFORT cushion** uses a combination of cellular urethane and **PORON** to protect the heel and ball of the foot. This constant impact absorption helps reduce foot, leg and lower back fatigue.
- Oliver lightweight Hi-Impact Alloy wide profile type1 toe cap, non magnetic. The wide profile shape is built to suit your foot and is padded with a latex cushion liner to ensure toes are comfortable and not in contact with the cap.
- Water resistant and flame retardant leather.
- Fully lined with SYMPATEX water proof liner & membrane.
- Heavy duty Nomex stitching and flame proof laces.
- Outsole heat resistant to 300° Celsius surface contact.
- **STEEL flex** stainless steel midsole penetration protection.
- **TECtuff** toe bumper protection.
- Australian '3M' Flame resistant high visibility reflective tape.
- Sole resistant to mineral and organic oils and acids.
- Excellent slip resistant sole.
- Superior cut, split and crack resistant sole.
- Fully Lined.
