

HANGAIR DRYING SYSTEM

Dries in hours not days!

The UK HangAir® Drying System uses a high-power waterproof fan to completely dry and ventilate suits of all kinds in mere hours.

By maintaining equipment with the HangAir® Drying System you can enjoy the comfort of a freshly dried suit before every excursion, ensure that your suit is blown clean and dry from the inside before storage, eliminate bad odours and add years to the life of your equipment.

The UK HangAir® is moulded from incredibly tough plastic resin and sports a steel hook which will comfortably support up to 48 kilos.

Safe, low voltage power is supplied to the hanger fan through a tough 5m cord attached to a universal power 100/240 VAC wall adapter.

FEATURES

- Dries wetsuits, dry suits, turnout gear, rainsuits, heavy protective clothing in hours not days
- High power waterproof fan pushes 140 cfm of dry air
