

**Cut total glass removal time to less than 1 minute!**

**Glas-master** is a revolutionary new manually operated, self supported (no electricity or hydraulics needed) glass removal tool that gives rescuers extra time to save lives.

Wehr engineering has developed this revolutionary tool to expedite the removal of all glass, reduce the risk of trauma to the patient and provide increased rescuer confidence in safely tackling this task.

**Fast** – no other manual tool cuts glass in faster time.

**Effective** – cuts rescue time

**Versatile** – use on fibreglass, wood, plaster and underwater rescue

**Safe** – less danger to entrapped victims and user.

The Multi-Functional Glas-Master Tool
