

HOOOLIGAN TOOLS

TOUGH TOOLS FOR TOUGH JOBS

THE MOST POPULAR AND VERSATILE DESIGN IN A HEAVY DUTY PRYING TOOL

For more than 35 years, the Paratech Hooligan Tool has set the standard of Excellence for Halligan type tools.

These heavy-duty tools were designed to pry, pound, puncture, twist and cut open or remove all types of barriers between emergency service personnel and saving a life.

Both the head and claw are forged from high alloy steel, heat treated for maximum strength, then permanently press fitted to a 1" (2.5cm) stress Proof or high strength lightweight alloy bar. The bar has machine grooved non-slip grips.

The Hooligan Tool features a gently curved claw that maximises your prying leverage.

The parallel claw opening fits over locks, hasps and many door bars.

When you're in trouble, it doubles as a nail puller and gas shut off tool.

The Highway Hooligan Tool features a can opener type metal cutting claw that cuts heavy gauge metal and composites. This tool is a must for vehicle rescue.

RECOMMENDED USERS

- Fire Departments
- Law Enforcement Agencies
