

Prencos Absorbents—Overview

(Loose Floor-Sweep Particulates)

Multi-Purpose Natural Mineral “Diatomite”
Physical & Chemical entrapment/ABsorption of MOST liquids & gases
Our CHEAPEST HIGH CAPACITY Absorbent that meets ALL CRITERIA

- Non-Abrasive • Non-Toxic/Hazardous • Non-Flammable
- Odour Suppressant • No quartz • Environmentally sound
- Lightweight - easy to handle bags

Passes EPA landfill disposal standards (TCLP & Paint filter)

Bio-Active & Biodegradable Cellulose
High capacity ABsorbent for all fluids (except high concentration acids & oxidisers) Microbial breakdown of hydrocarbons with biodegradable fibres
SPILL-SWEEP– all purpose use absorbent. Tested to EPA landfill standards
ABSORBENT 30– heavier fibre for windy conditions & soil remediation
ROAD-SPILL– “gritty” mineral component for added non-slip road spills
ACIDSORB– economical biodegradable acid neutraliser absorbent
CAUSTICSORB- economical biodegradable caustic neutraliser absorbent
Passes EPA landfill disposal standards (TCLP & Paint filter)

K-Sorb
hydrophobic

Biodegradable Organic “Floating” Absorbent
All natural inert organic fibres—repels water (hydrophobic)• High capacity ABsorption of all hydrocarbons • Floats on water absorbing oils/fuels on contact • Available in loose bales, booms and pillows
• Passes EPA landfill disposal standards (TCLP & Paint filter)

Quality Inert Polymer Super Absorbent Range
A high performance Absorbent that meets ALL CRITERIA. Encapsulates ALL fluids (except hydrofluoric acid) into gel molecules • Non-Toxic
• Non-Flammable • Non- Carcinogenic • Minimises Odours • Lightweight
Passes EPA landfill disposal standards (TCLP & Paint filter)
- Available in INDOOR, BIO-WASTE & ACID /CAUSTIC Neutralising formulas -

High Performance Polymer Binder
The best performing Hazardous Chemical Absorbent on the market today. For use with ALL Fluids (except mercury) Very high capacity • Available in extinguisher jet for difficult to manage spills • Colour indicator for Acid & Caustic identification • Emmission blocker • Non-Toxic • Non-Flammable

Prencos—specialists in absorbent technology, systems and resources....
